INTRODUCTION

The **HOMEownership** Down Payment & Closing Cost Assistance Program operates through local partnerships with governmental entities, non-profit housing service providers, and mortgage lenders across the Commonwealth. DHCD is seeking to competitively maintain a regional network of grant administrators who offer housing counseling and pre-qualification screening for eligibility on a first-come, first-served basis to address all regions of the state targeting first-time homebuyers with incomes at or below 80% of the Area Median Income (AMI) as established by the U.S. Department of Housing and Urban Development (HUD). The program structure must promote equitable access to HOME funds by both entitlement and non-entitlement communities based on income and credit criteria. The assistance is offered as a forgivable loan to eligible homebuyers.

PROGRAM DESCRIPTION

PROGRAM GOAL: HOMEOWNERSHIP ASSISTANCE

The HOMEownership Down Payment & Closing Cost Assistance Program is a flexible gap financing program that provides opportunities for first-time homebuyers to obtain homes that are safe, decent, and accessible. The long term goal is sustainable housing and growth in personal wealth and equity for low-income Virginians. Applicants who submit proposals to administer HOME funds for DHCD must have a program of assistance outlined that would provide a mechanism to qualify eligible homebuyers based on actual financial need, on a first-come, first-served basis.

Applicants must demonstrate the capacity to identify target markets, housing stock and homebuyers to increase the numbers of homeowners in Virginia. Applicants must describe a clear plan of action which demonstrates their knowledge of, and past work with, the target markets, barriers to access, available qualified housing stock, and potential homebuyers who are either currently prepared or who will be prepared in the very near future to enter homeownership. The goal of “placing low- income persons in the position of homeownership” is too vague; the goals of the program must be clearly defined and stated outcomes must be measurable.

In order to describe the need for housing assistance costs of the target population applicants should not rely solely on waiting list information maintained by their organization. Organizations should collaborate with other local sources such as housing assistance waiting lists, other housing program grantees and administrators, social service agencies, area agencies on aging, and local building and fire officials to determine target populations. Program designs that emphasize public/private partnerships will be given priority consideration.

APPLIED FORMULAS FOR ALL HOME-ASSISTED UNITS

Administrative requirements for the HOMEownership Down Payment & Closing Cost Assistance Program will follow the established guidelines specified in the HOME Final Rule (see http://www.access.gpo.gov/nara/cfr/waisidx_03/24cfr92_03.html). The maximum amount of direct assistance to the homebuyer cannot exceed 10% of the sales price, and should be determined by a debt to income ratio analysis that does not exceed the maximum FHA standard on a first mortgage loan for housing costs and revolving debt. Homebuyers in localities of the

state which have been designated as “high cost areas” or “chronically economically depressed” (see addendum A) may receive “**up to**” **15%** of the sales price as the **need** demands. In addition, the Regional Administrator can provide an additional \$2,500 in HOME subsidy to cover eligible closing costs not adequately paid by the seller.

PROGRAM REQUIREMENTS

The HOMEownership Down Payment & Closing Cost Assistance Program is designed to operate through local partnerships with governmental entities, non-profit housing service providers, and mortgage lenders across the Commonwealth. Administrators selected to administer the HOME program funds must be units of local government or nonprofit organizations that are actively participating in housing programs on a regional basis. Administrators may be located in HOME-entitlement areas of Virginia as long as they also provide service through their organization to non-entitlement communities.

The HOME program specifically requires:

- Down payment and closing costs for identified populations where total family household income does not exceed 80 percent of the area median income;
- Supportive services including preliminary homebuyer services; i.e., pre-qualification screening, and housing counseling services;
- Access to HOME program funds must be offered on a first-come, first-served basis; and
- Assisted housing and associated costs cannot exceed 95 percent of the area median home sales price which are established by HUD as the 203B limits.

I. CLIENT ELIGIBILITY:

Participation in the program is limited to credit-eligible homebuyers at or below 80 percent of the area median income (AMI) as defined by HUD based on household size and geographic location of the assisted property. Homebuyers with total household incomes in excess of 80 percent AMI are not eligible for this assistance. HOME down payment and closing cost assistance is not an entitlement, but a limited public resource to be used to further first time home ownership for those who without this assistance would not be able to move forward with a home purchase. Use the following links to review income tables and the maximum area sales price: <https://www.hudexchange.info/manage-a-program/home-income-limits/> <https://www.hudexchange.info/resource/2312/home-maximum-purchase-price-after-rehab-value/>

II. HOMEBUYER OR BENEFICIARY CRITERIA AND PROGRAM GUIDELINES:

1. Homebuyers must meet all eligibility requirements:
 - a. Qualify as a first-time Homebuyer as defined by one of the following:
 - i. have never owned a home before; or
 - ii. have not held primary ownership in a principle residence within the most recent three year period;
 - b. Receive homeownership counseling;
 - c. Complete a HUD-certified Homebuyer Education Course through a VHDA or Neighborworks® certified course;
 - d. Possess a signed purchase offer for a property (turn key at the time of settlement);
 - e. Demonstrate that their income does not exceed 80 percent of the AMI;
 - f. Contribute **one percent** of the sales price of the home from their personal funds if the income is between **50%-80%** of the AMI, and if the income is less than **50%** of the AMI, they can contribute \$500 towards the purchase of the home. **Also, provide receipts as proof of the one percent contribution.**
2. *NOTE:* If purchaser puts down more than the required amount of cash to purchase a home, the additional cash will go towards the purchase of the home. If it is determined the purchaser will receive funds back at closing, then the HOME funds **MUST** be reduced by that amount. No FUNDS will be *RETURNED* or *REIMBURSED* (regardless of the source) to the purchaser at closing/settlement when HOME funds are awarded for down payment and/or closing cost assistance.

The **Administrator** is responsible for reviewing the final Closing Disclosure prior to closing. If it is determined that the purchaser is receiving cash back at closing, then the HOME funds “**MUST**” be reduced by that amount. If the purchaser is required to pay any costs up front that would have an effect on settlement, the administrator must make appropriate adjustments to prevent cash back at closing.

3. The Administrator’s homebuyer application must clearly disclose all program requirements and fees to the homebuyer.
 - a. The purchaser must sign a homebuyer agreement form with the administrator for the down payment and/or closing assistance.
 - b. All information and documentation must be retained by the Administrator for 5 years after the required affordability period from the date of loan closing.

4. Eligible properties must meet programmatic requirements of Mortgage Lenders and include the following:
 - a. Single-family property (one unit);
 - b. Two-unit property where one unit will be the principle residence of the purchaser and the second is a HOME rental unit;
 - c. Townhouse homes;
 - d. Condominiums
 - e. Manufactured home
 - i. The manufactured housing must be connected to permanent utility hook-ups. The manufactured housing must be located on land that is owned by the manufactured housing unit owner, or on land for which the manufactured housing unit owner has a lease for a period at least equal to the applicable period of affordability.

5. Program guidelines:
 - a. Funding is limited to down payment and closing cost assistance for purchasers at or below 80 percent AMI. Purchasers can receive **up to** 10 percent or **up to** 15 percent (within the established approved areas by DHCD) of the sales price as **needs** demand.
 - b. The maximum amount of secondary financing and other subsidies will be restricted to the lesser of 20% (including DHCD HOME funds) of the purchase price or appraised value.
 - c. Homebuyers with cash assets of 10 percent or more of the sales price **will not** be eligible for down payment and closing cost assistance (i.e. assets which cannot be liquidated without the applicant incurring a penalty- written verification will be required).
 - d. Loan packages submitted for funding consideration cannot exceed **96.5** percent of the loan to value (LTV) or a cumulative LTV of 108 percent including any other sources of subsidies. The total loan origination charges **cannot exceed 2.5% of the loan amount**. Administrators should be aware of the comparable sales prices in their targeted areas.
 - e. Homebuyers must meet the usual and customary mortgage underwriting criteria that demonstrate creditworthiness sufficient to obtain a mortgage loan commitment, and **must possess a 90 day work history before application of grant funds**.
 - f. The sales price of the home must not exceed **five times** the borrowers' household income, and the area median purchase price limits must be met.
 - g. A complete FHA appraisal must be conducted on all HOME-assisted properties. Home values may not exceed 95 percent of the area median sales prices (203B limits established by HUD).
 - h. All units of housing must meet the applicable Uniform Physical Condition Standards as established by HUD pursuant to 24 CFR 5.703 prior to final settlement or closing.
 - i. The home inspection must be conducted by a certified home inspector with separation of duties. - j. HUD lead-safe provisions apply to all assisted home properties purchased. This includes a notice of lead hazard, visual assessment for lead base paint form, remedy of any lead problems, and re-inspection if applicable. All assessments must be conducted by a third party **HUD Certified, VA Lead Inspector or VA Risk Assessor**.
- III.
- k. Use the following link to access the **HUD Lead Based Paint Visual Assessment Training Course**:
<http://www.hud.gov/offices/lead/training/visualassessment/h00101.htm>
 - l. The files of the Administrator must include a written completed calculation of income for each homebuyer compared to applicable limits of the program. Any changes to the calculation of income up until closing must be properly documented in writing and signed by the client, and included in the file.
6. Underwriting Guidelines:
- a. DHCD will utilize the current ratios of **33%** for the housing ratio and **43%** for the debt to income ratio.

 - e. All judgments must be paid in full regardless of amount prior to closing, and evidence must be provided as proof of payment.
 - f. Any delinquent federal debt such as student loan, tax liens, etc. will not be eligible for down payment assistance.
 - g. If child support and/or alimony income is being used to qualify the applicant for the program, then DHCD will need to have documentation showing proof that the applicant has been receiving this income for 6-12 months. If the child support and/or alimony income has been received for less than 6 months, then it cannot be counted in the qualifying ratios, **No Exceptions!** Below are the types of acceptable documentation:

- ii. Cancelled checks from the account the check was written on,

If the property is two units, one of the units must be owner-occupied and the second unit must be a HOME-assisted rental unit. The rental requirements that apply include the rent must be restricted to someone below 80% of area median income, the maximum rent is the High HOME rent minus tenant paid utilities, there must be an executed lease that is for one-year and does not contain prohibited lease provisions, and the unit must meet housing quality standards (HQS) unless there is a local housing code that is more restrictive on occupancy. The income-certified low-income households must be approved in writing by the Local Administrator, with approval from the DHCD, and the homebuyer shall submit for written approval of the Local Administrator and the DHCD copies of all proposed leases prior to having them signed by any proposed tenant.

8. Affordability Period

- a. The Period of Affordability is based on the **direct** HOME subsidy provided to the homebuyer that enabled the homebuyer to purchase the unit. A direct subsidy consists of any financial assistance that reduces the purchase price from fair market value to an affordable price or otherwise subsidizes the purchase (e.g., down payment or closing cost assistance). It is the responsibility of the program administrator to assure that all HOME funds are included in the calculation of the affordability period.

<i>Amount of Assistance or Subsidy</i>	<i>Affordability Period by Years</i>
\$1,000 – \$14,999	5
\$15,000 - \$40,000	10
Amounts over \$40,000	15

- b. No monthly repayment is required on the forgivable HOME loan issued by DHCD. The applied subsidy will be forgiven at the end of the period of affordability.
- c. *Recapture*: Homebuyers are subject to recapture restrictions to ensure that the home remains affordable consistent with the applicable period of affordability. DHCD's program design incorporates the recapture provision consistent with the standards in the HUD HOME Investment Partnerships Program Final Rule 24 CFR 92.254.

If the homebuyer sells or transfers title of the HOME assisted property, either voluntarily or involuntarily, during the Period of Affordability, the state will recapture, from the available net proceeds, the entire amount of the HOME investment from the homebuyer. If there are no net proceeds or the net proceeds are insufficient to repay the HOME investment due, the state can only recapture the amount of the net proceeds, if any. The net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs.

The recapture provision applies to all properties that receive down payment or closing cost assistance through this program, even loans that are assumable. If a homebuyer assisted through

this program allows the property to be assumed by another party prior to the end of the affordability period the total amount of assistance will be recaptured and returned to DHCD.

The forgivable HOME loan IS NOT Assumable. If the new homebuyer receives an Assumable 1st lien position primary mortgage giving the original homebuyer the right to assign the unpaid balance of his obligation, without prepayment penalty, to another person upon sale of the mortgaged property, the forgivable HOME loan MAY NOT be assumed and the recapture provision is triggered. The state will recapture, from the available net proceeds, the entire amount of the HOME investment from the original homebuyer and the property ceases to be a HOME assisted unit.

- d. *Repayment:* The owner of the HOME-assisted Unit shall at all times maintain the Affordable Unit as his or her principal place of residence during the Period of Affordability. At no time shall the owner of the HOME-assisted Unit lease or rent the Affordable Unit to any person or persons. Failure of the homebuyer to occupy the HOME assisted unit as his or her principal residence (i.e., unit is rented or vacant) will trigger the *repayment* of the entire outstanding HOME investment. DHCD will attempt to bring the property back into compliance by having the homebuyer re-occupy the property. If re-occupancy fails, the homebuyer must repay the entire HOME investment back to the state of VA.
 - e. Homebuyers must execute a Restricted Deed of Covenant for the amount of the HOME subsidy with a term that runs consistent with the applicable affordability period) (APPENDIX B); **NOTE:** Minimum HOME Investment per unit is \$1,000 per HUD regulations (24 CFR 92.205 Section C).
 - f. Homebuyers must understand that there will be a lien placed on the property during the affordability period.
 - g. The homebuyer(s) may prepay the whole unpaid balance of this indebtedness at any time without penalty. However, the provisions of the HOME homebuyer agreement will not be released during the affordability period.
 - h. The program may consider a re-subordination agreement in the case of a refinance or equity line of credit in certain extenuating circumstances where a loan modification will allow the house to remain an affordable unit and assist the buyer in maintaining the property as their primary residence. In no case shall the program consider cash out or equity refinancing. All requests must be submitted to DHCD in writing.
9. Examples of eligible first mortgage products may include, but are not limited to, the following:
- a. Programs designated by VHDA that are in the interest of assisting homebuyers acquire affordable homes;
